LABOR

PRODUCTION CATERING LABOR

Labor will be billed daily, at the following rates:

- Chef Driver (Local 399) Union Rate
- Assistant Chef (Local 11) Union Rate
- Prep Cook (Local 11) Union Rate

Regular wages apply for the first eight hours of work. Overtime rate will be charged at applicable overtime rates according to the labor contracts for each union. Chef Driver rates will also include applicable premiums according to Local 399 bylaws including a \$40.00 per day meal allowance.

STAFF BREAKDOWN

Staffing is based on the headcount of the crew we are catering. For a crew feed of 75 – 150 guests we will require one Chef Driver, one assistant chef, prep cooks and one utility cleaner. For additional 50 people added to the headcount, we will need to add an additional staff member. Each catering truck can support a crew feed of up to 150 guests.

WB Production Catering requires our staff to work in a prompt and efficient manner. Overtime will usually result from situations where a call time is pushed by the production or an unforeseen change in the schedule. In addition, any requests by the production company for meals to be served longer than an hour and a half may and/or will result in additional overtime charges.
